Letter of Reference

Georganne Gasaway

I have known Ms. Gasaway for over 8 years. She had moved to Corpus Christi and volunteered to help on a major new entrance project I was developing for Texas A&M University-Corpus Christi.

When someone offers to help complete a \$ 750,000 philanthropic project and asks for no pay, you might have doubts, but normally you find a way to discover their talents and utilize them to the best of their ability.

I asked her to attend some meetings with me and keep track of the proceedings. We attended numerous meetings where she presented herself professionally, took detailed notes and filed the information in her briefcase where she kept it readily available. The project took almost a year, encountered several obstacles involving multiple changes and she kept detailed files on all work, completion targets and actual completion dates. She was very tenacious, wanting to complete projects on time and properly. She did not accept excuses for inferior work and was quick to recognize and compliment extra efforts. She handled all problems flawlessly. I was impressed with her abilities and energy. If I had any openings in one of my companies, I would have hired her immediately.

Ms. Gasaway is a rare find in that she pursues cost and quality targets with equal zest and makes sure there is proper balance between the two. I recommend Ms. Gasaway to anyone and state that she will do whatever she says she will do and get it done to your satisfaction.

Sincerely,

William R. Durrill
